(2) Amend section 1984 of Division 19 of Title 16 of the California Code of Regulations to read as follows:

§1984. Structural Integrated Pest Management.

(a) Structural integrated pest management (IPM) means a systematic decision making approach to managing pests, which focuses on long-term prevention or suppression with minimal impact on human health, property, the environment, and non-target organisms. Structural IPM incorporates all reasonable measures to prevent pest problems by properly identifying pests, monitoring population dynamics, and using ~~cultural~~ behavioral, physical, biological or chemical pest population control measures to reduce pests to acceptable levels. If a pesticide application or other intervention is determined to

be necessary, the selection and application of the intervention shall be performed in a manner that minimizes risk to people, property, the environment, and non-target organisms, while providing effective pest management.

(b) For the purposes of this section, intervention means an action, device, product or practice that is intended for the prevention, control, management, elimination or abatement of a pest.
